

I'm Emili Genêt and I'm a french design student. My work is quite diverse ranging from making analog images (developing and scanning Black & White film), risoprinting posters or teeny-weeny zines. From spending hours on my laptop app settings, I am able to use this hard software knowledge to develop printed projects from A-to-Z: graphic design files, printing, folding, cutting and also bookbinding (stapled, stitched spine, glued together sewed square back). I also have a small mastery but great interest for 3D creation on Blender and CD4.

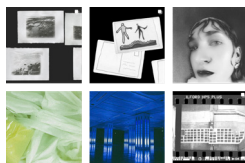

Education:

2020 • 2023 – DNMADE Editorial Graphic Design
École Duperré Paris (75003)

2017 • 2020 – Baccalauréat STD2A with Highest Honours
Isaac de l'Étoile School complex (86)
